**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse of Group I, claims 1-14 in the reply filed on 2/16/05 is acknowledged.

Claims 15-18 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to nonelected Groups II and III, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 2/16/05.

### ***Claim Rejections - 35 USC § 112***

Claims 8 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 recites the limitation "actuating ring" in line 2. There is insufficient antecedent basis for this limitation in the claim.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2 and 7-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Chang.

In regard to claims 1 and 2, the Chang reference discloses a "lid assembly" (see Fig. 2) for creating a vacuum, said assembly comprising a "seat portion" 4, a "pump configuration" (44-46), a "pumping element" 6 and a rotatable "actuating element" 3, as claimed.

In regard to claim 7, see "ratchet mechanism" 5.

In regard to claims 8 and 9, see "lid-removal mechanism" 7 and column 3, lines 36-52.

In regard to claims 10-12, see "vacuum indicator" 24 and "passage" 26 and column 4, lines 47-55.

In regard to claim 13, the "one-way outlet valve" 46 is described in column 2, lines 57-63; and the "one-way inlet valve" 47 is described in column 4, lines 41-46.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Lynch reference pertains to another rotating vacuum lid storage system, similar to Applicant's device; and the Sanfilippo et al. reference pertains to another vacuum system having a filter associated with an outlet valve.

***Allowable Subject Matter***

Claims 3-6 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
